

## **REMARKS**

### **Status of the Claims**

Claims 65-101 are pending. Claims 67, and 81-85 are withdrawn.

### **Novelty and Obviousness**

The Examiner rejects claims 65, 66, 71, 73, 75-76, 79, 79, and 87 are rejected as anticipated or obvious over Jensen et al. under 35 U.S.C. §§ 102(a) and 103.

Applicants submit that Jensen is disclosing Applicants' own work. Applicants herein provide a Declaration under 37 C.F.R. 1.131 from Inventor Christian Sig Jensen describing the discovery and publication process. Inventor Jensen also provides multiple exhibits which establish that the invention of the present application was reduced to practice prior to the publication date of the Jensen reference.

Page 3 of the Jensen Declaration specifically asserts that the experiments reported in the pre-publication draft Exhibit 12 were completed prior to March 12, 2001, thus evidencing that the present invention was reduced to practice prior to publication of the Jensen article.

The Jensen article, therefore, is not prior art to the present application under 35 USC 102(a), and the prior art rejections should be withdrawn.

In view of the above amendment, applicant believes the pending application is in condition for allowance.

No. 30,330 at the telephone number of the undersigned below, to conduct an interview in an effort to expedite prosecution in connection with the present application.
